Process of Production

First-Class LED Bulb R&D Laboratory

In CLEVER's LED Our Processing testing deal with R&D Laboratory, First-class equipment from Japan, Italy and Germany are application to ensure stable product and quality.

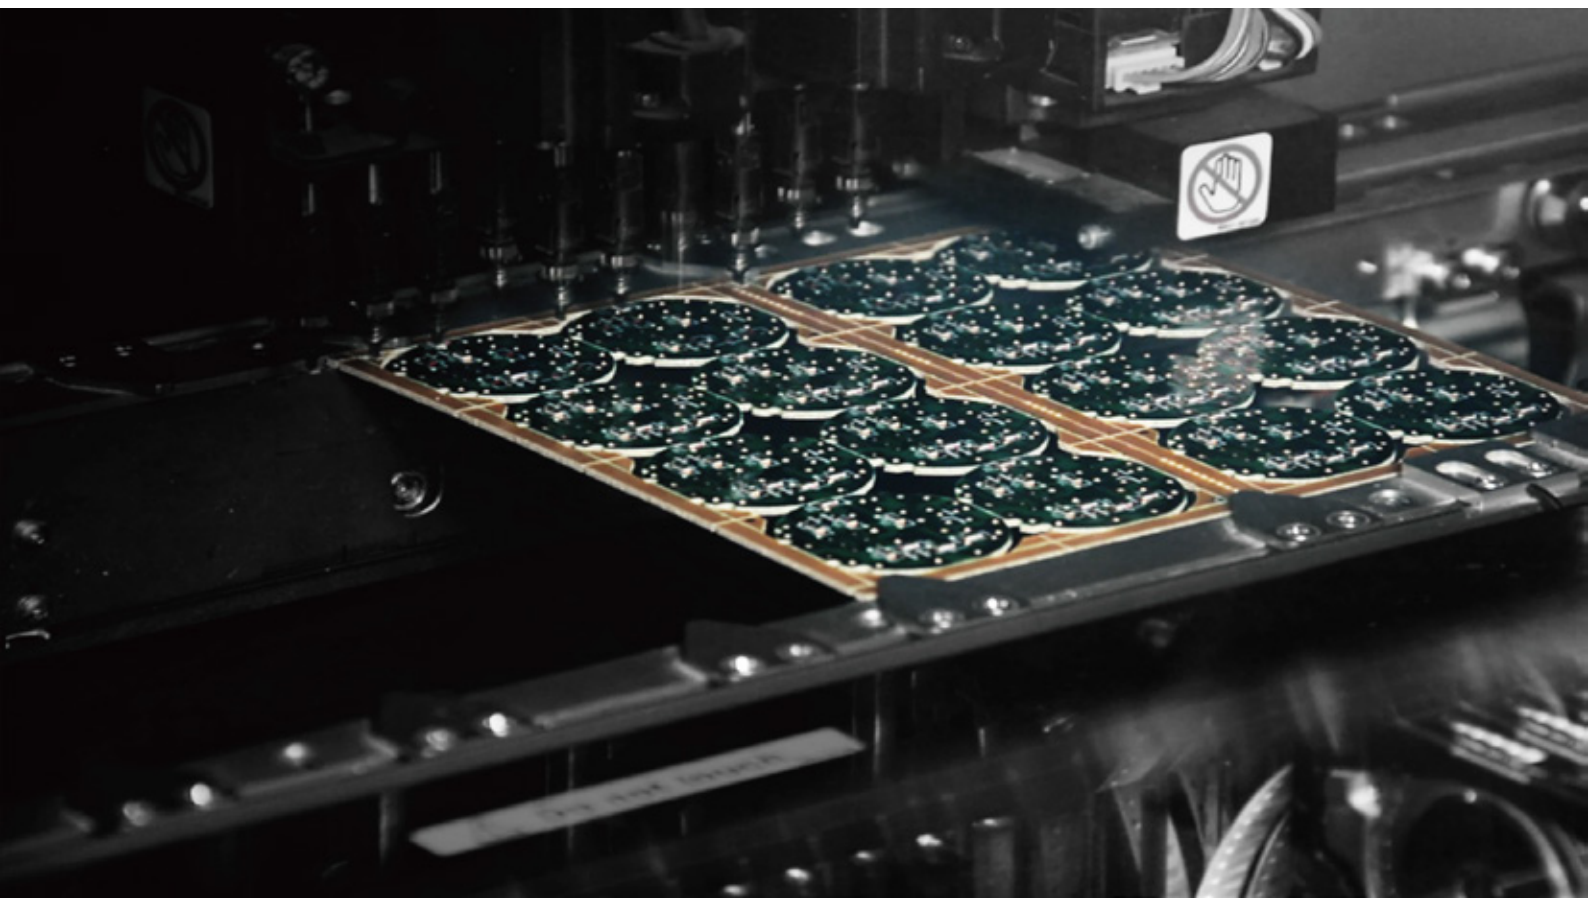

Strong R&D capabilities together with knowledge of markets have ensured successful importations into more than 50 branches.

Our innovative product development skillset combined with end-to-end customer support have helped many clients win a competitive edge in thier markets.

Process of Production

- Automatic production lines
- Well-trained workers
- On-site project management engineer
- Strict quality assurance system
- Standard operating procedure
- High volume production capacity
- Social responsibility and employee selfare

Ballet

Ballet is one of the few form of art that reveals human beauty and soul.

a ballerina is not only required to have physical beauty but also technical competence. High jumps and beautiful turns reveal years of training behind the scene. A ballet piece represents delicate work, persistent spirit, and passionate devotion.

This is why we named this series Ballet. In hands of designers, a ballet dance transforms into lines, and lines transform into structural drawings of a LED bulb, essentially, it touches the hear and becomes the Ballet series.

Product Features

- Elegant design incorporating the beauty of classic ballet
- High luminous efficacy: >85 lm/w
- Astonishing lifespan: 25,000 hours
- Constant-current LED driver inside, non-flickering
- Body: Heat-conductive plastic coated aluminum.
- Cover: Imported light diffusion PC with excellent optical performance.

CLEVER One-Step Packaging Process

Every LED bulb is carefully checked before loading to containers, Clever packing boxes and cartons are built using quality paper material to ensure good condition on arrival, Light weighted yet highly durable, CLEVER packaging boxes are tested to protect the products inside during transportations.

We calculated carefully when designing the boxes to achieve maximized volume without compromising protection to the products.

In the mean time, CLEVER beautifully printed graphics on packaging not only differentiate your product from the competitor's, but also promotes your product vividly to consumers.
